WHERE CAFETERIAS use BERNER AIR CURTAINS:

1 KITCHEN DELIVERY DOORS:
 Maintain High Sanitation Standards Health Departments recommend the chemical-free insect control provided by an EPH Listed per NSF 37 Certified Berner Air Curtain to maintain a healthier kitchen environment.

2 WALK-IN COOLER:
 Maintain refrigeration temperatures when the door is open and thus, save energy through decreased compressor run times, as well as diminish the threat and associated costs of food spoilage.

3 OUTSIDE SEATING DOORS
 Keep cigarette smoke and flying insects out while keeping conditioned air in, maintaining the comfort of those on the inside as people go outside.

4 EXTERIOR ENTRANCE DOORS
 Maintain a comfortable welcoming entry for guests and employees as they wait for a table or man the registers.

**ARCHITECTURAL
High Performance 10**

Berner air curtains improve walk-in cooler efficiencies by 27%

Testing shows that Air Curtains on Walk-in Coolers protect temperatures and reduce compressor run-times.

Graph shows a peak period taken from two weeks of on-site testing in a restaurant kitchen.

For more information on this study refer to, "Arby's Franchisee Test Proves Air Curtains Improve Walk-in Cooler Efficiencies by 27%"
